OVERVIEW

The Intermediate workshop continues to build on skills learnt on the Foundation workshop, giving young musicians the knowledge they need to further their playing abilities.

This workshop digs deeper into practical music theory, arming students with techniques they can easily put into practise in every day playing as well as in the workshop.

Students will also learn three songs that incorporate techniques, such as soloing and improvisation for guitarists and the advanced application of popular rudiments for drummers, which they will get to perfect in the live performance sessions.
