REMIX

OVERVIEW

Remix takes playing covers to a new level, teaching students how to put their own spin on popular and classic songs, learning the key elements of different genres that they will then use to write their own song.

Students will take two songs and put them into different styles before writing their own.

Very little theory is covered on this workshop - students are expected to already be able to read guitar/bass/drum tab and understand basic music theory, including chord names/standard drum grooves.
